Research Bootcamp for Early Career Researchers.

This intensive program is designed to set junior law faculty and doctoral candidates up for successful research careers right from the start. Mentored by experienced researchers, participants will engage in several hands-on and cohort-based sessions, gaining valuable skills and knowledge to excel in their research endeavors.

Open to researchers from diverse legal backgrounds, this bootcamp provides a supportive environment for networking and collaboration. Whether you're aiming to secure your first research grant or article in high-quality journal or enhance your research skills, this multifaceted program is tailored to meet your needs. Don't miss this opportunity to kickstart your research career.
